Professional Experience

- Worked as a driver for Keroche Industries for a period of time.

Here I made deliveries to various clients as requested and all on time .

- Worked as an assistant mechanic in the vehicle industry.

I made sure the clients' vehicles were properly assembled and well repaired to ensure safety on roads. All was done to the client's satisfaction.

I've also been self employed doing electrical wiring, popularly called the 'jua kali' industry.

VISION

Contributing to the society by providing services in every possible way, using my skills, knowledge and Creativity in development of a better tomorrow and carrying out all duties as requested by my Employer/ Client(s).

Working hand in hand with my colleagues in any given industry to ensure we reach greater peaks under minimum supervision.
