WORK EXPERIENCE.

12th JUNE 2023 TO DATE

TECHNICAL OPERATOR- HIGHLANDS DRINKS LIMITED COMPANY

1.LABELLER OPERATOR

- **Label Application:** Operate labeling machinery to apply labels to beverage containers. Ensure labels are correctly positioned and adhered to the containers without wrinkles or misalignment.
- **Machine Maintenance:** Perform routine maintenance and minor repairs on labeling machines to ensure they operate smoothly. This might include cleaning, adjusting settings, and replacing worn parts.
- **Quality Control:** Inspect labeled products for quality and consistency. Check for issues such as incorrect label placement, printing errors, or damaged labels. Ensure compliance with company standards and regulations.
- **Label Inventory Management:** Monitor and manage label inventory. Order new labels as needed and ensure that the correct labels are used for each product.
- **Production Monitoring:** Track production metrics and ensure labeling processes align with production schedules. Report any issues or deviations from expected performance to supervisors.
- **Documentation:** Maintain accurate records of labeling operations, including quantities produced, any machine malfunctions, and label usage. This information helps in tracking production and troubleshooting issues.
- **Safety Compliance:** Follow all safety protocols and guidelines to ensure a safe working environment. This includes wearing appropriate protective equipment and adhering to machine safety procedures.
- **Collaboration:** Work closely with other production team members, including operators, supervisors, and quality control staff, to ensure smooth production flow and address any issues that arise.
- **Training:** Train new operators on the proper use of labeling equipment and procedures, if required.
- **Troubleshooting:** Identify and resolve issues related to the labeling process, including machine jams, label misalignment, or adhesive problems.

2. SHRINK WRAPPER OPERATOR

- Performing minor adjustment on machine to accommodate different products to be wrapped
- Inspect and remove defective or damaged products
- Performing basic maintenance on the machine
