LANGUAGES

- **English:** Written and spoken (Fluent)
- **Kiswahili:** Written and spoken (Fluent)

CAREER OBJECTIVES

I am a dedicated and experienced plumber with over 5 years of professional experience in both military and government sectors. I am committed to delivering high-quality plumbing services while ensuring compliance with safety standards and environmental regulations. I seek to leverage my technical expertise and leadership skills to contribute to innovative water and sanitation projects that improve community welfare. My goal is to advance my career in plumbing engineering while continuously developing my skills in modern plumbing technologies and sustainable water management practices.

PERSONAL ATTRIBUTES

- **Reliability:** Consistently deliver projects on time and maintain high standards of workmanship in all assignments
- **Problem-solving ability:** Quickly diagnose complex plumbing issues and implement effective solutions using analytical thinking
- **Attention to detail:** Ensure precision in installations and repairs to prevent future complications and maintain system integrity
- **Physical stamina:** Capable of working in challenging environments and handling physically demanding tasks for extended periods
- **Safety consciousness:** Prioritize workplace safety and strictly adhere to health and safety protocols in all operations
- **Team leadership:** Effectively supervise junior staff and coordinate team efforts to achieve project objectives
- **Customer service orientation:** Maintain professional relationships with clients and provide clear communication about services
- **Adaptability:** Easily adjust to new technologies, work environments, and changing project requirements

- **Integrity:** Demonstrate honesty and ethical behavior in all professional interactions and business dealings
- **Continuous learning mindset:** Actively seek opportunities to upgrade skills and stay current with industry developments

SKILLS

1. **Pipe Installation and Repair:** Expert in installing, maintaining, and repairing various pipe systems including PVC, copper, steel, and HDPE materials
2. **Water System Design:** Proficient in designing and implementing residential, commercial, and industrial water distribution systems
3. **Drainage Solutions:** Specialized in installing and maintaining sewerage systems, storm water drainage, and waste management systems
4. **Plumbing Tools Operation:** Skilled in using advanced plumbing tools including pipe cutters, threading machines, welding equipment, and diagnostic instruments
5. **Blueprint Reading:** Ability to interpret technical drawings, schematics, and architectural plans for plumbing installations
6. **Water Quality Testing:** Competent in conducting water quality assessments and implementing treatment solutions for safe consumption
7. **Emergency Response:** Experienced in handling urgent plumbing emergencies with quick response times and effective problem resolution
8. **Project Management:** Capable of planning, executing, and monitoring plumbing projects from conception to completion
9. **Health and Safety Compliance:** Thorough knowledge of occupational safety standards and environmental regulations in plumbing work
10. **Equipment Maintenance:** Skilled in preventive maintenance schedules and repair of pumps, valves, fixtures, and other plumbing equipment

WORK EXPERIENCE

Designation: Senior Plumber

- **Employer:** Hoscec plumbing services company
- **Location:** Nairobi , Kenya
- **Duration:** January 2021 - Present (5years)

RESPONSIBILITIES:

1. Install and maintain complex plumbing systems in naval vessels, submarines, and shore-based facilities
2. Supervise junior plumbers and provide technical guidance on specialized maritime plumbing installations
3. Conduct emergency repairs on critical water and sanitation systems during naval operations and deployments
4. Ensure compliance with military standards and maritime safety regulations in all plumbing operations
5. Manage inventory of specialized plumbing materials and equipment required for naval applications
6. Coordinate with engineering teams on major infrastructure upgrades and system modifications

7. Train new personnel on naval-specific plumbing techniques and safety protocols
8. Maintain detailed maintenance logs and technical reports for all plumbing systems and equipment
9. Respond to 24/7 emergency calls and provide critical support during naval exercises and missions
10. Implement water conservation measures and sustainable practices in naval facility operations

HOBBIES AND INTERESTS

- **Swimming:** Maintaining physical fitness and water safety skills relevant to plumbing profession
- **Football:** Developing teamwork and leadership skills through sports participation
- **Technical Reading:** Staying updated with latest plumbing technologies and industry best practices
- **Community Volunteering:** Participating in local water and sanitation improvement projects
- **Environmental Conservation:** Promoting sustainable water management practices in the community
- **Skills Training:** Mentoring young people interested in plumbing and technical trades

EDUCATION BACKGROUND

Certificate of Skills Upgrading Basic Level Plumber Pipe Fitter Grade III Trade Test

- **College:** National Industrial Training Authority (NITA)
- **Location:** Athi River , Machakosi
- **Duration:** 02nd February 2019 -20th November 2020

Kenya Certificate of Secondary Education (K.C.S.E)

- **High School:** St. Pauls Secondary School Webuye
- **Location:** Bungoma County, Webuye East Sub-location
- **Year of Completion:** 2018

Kenya Certificate of Primary Education (K.C.P.E)

- **Primary School:** Mukhalanya Primary School
- **Location:** Matete Sub-location
- **Year of Completion:** 2014
