PERSONAL DETAILS

NAME: PHILLIMON TAABU MWAO

TELEPHONE: 0798115787

EMAIL: philemonmwao223@gmail.com

AGE: 24

CAREER OBJECTIVE

I am a passionate and ambitious individual striving to become a software developer and immerse deeply in technology. My goal is to leverage my technical skills, creativity and dedication to create innovative solutions in tech industry.

EDUCATION

August 2021 – present (Third year): I am currently pursuing a Diploma in Information Technology , focusing on software development, mobile app creation and emerging technologies at the Kisii national polytechnic.

2021(April)- August(2021): I joined Modcom institute of Technology in Westlands, Nairobi where I studied diploma in software development. This intensive 3 months course introduced me to software development and laid the foundation to my technical journey. My final project emerged the best upon completion of the course.

2018 – 2021(April): I went to the Butere Boys High school as a form one. I was appointed dormitory captain from form 1 to form 4. while in high school, my excellence in computer studies earned me a scholarship to study software development at Modcom Institute of Technology. I got a C- in my KCSE exams with an A in computer studies.

2009 – 2018 : I completed my primary education at Eshibanze muslim primary school with an impressive performance, I scored 383 marks which enabled me to join Butere Boys High School, Butere.

ACHIEVEMENTS

Worldskills Competition(August 2024): I qualified to participate in the prestigious worldskills national competition as a mobile app developer, held at the Kenya School of TVETA and emerged as the second runners-up. This experience allowed me to showcase my app development skills on a national platform.

University Chess Captain (2022): After participating in KASUESA National Chess Competition at Rongo University, I was appointed as the men's chess captain at the Collage. This role has enhanced my leadership and strategic thinking abilities.

Scholarship award(2021): My exceptional performance in computer studies in high school earned me a scholarship to study software development at Modcom Institute Of Technology , Nairobi.

SKILLS

Technical skills:

programming languages: python, java, kotlin, C, C++, data science

Mobile app development: experienced with android studio and developed four applications including a guess game.

Database management: skilled in MYSQL and XAMPP and relational database systems

Version control: Knowledgeable in Git and GitHub for collaborative projects.

Soft skills:

- leadership and teamwork, demonstrated as a university chess captain and a dormitory captain back in high school.
- Problem solving and critical thinking in software and app development.
- Strong communication and interpersonal skills.

PROJECTS

Mobile applications: I designed and developed mobile apps using android studio. This projects enhanced my skills in user interface design, backend integration and app functionality.

INTERESTS

Chess: playing chess has honed my strategic thinking and decision making skills , I am so proud to serve as a chess captain.

Technology: I am passionate about exploring new tech trends particularly in software development and mobile applications.
