

MAKOKHA ALI KWEYU

+254716198487 | aikweyu1@gmail.com | 433-00518, Nairobi, Kenya

Experienced iOS developer with over 2 years of hands-on experience in designing, developing, and deploying high-quality mobile applications in the fintech sector. Proven track record of delivering multiple apps to production, demonstrating expertise in SwiftUI, UIKit and modern iOS development practices. Adapt at creating user centric, scalable and secure solutions, leveraging APIs, MVVM architecture, and third-party integrations. Strong problem-solving skills with a focus on performance optimization and enhancing user experience.

Skills

| | |
|-----------------|--------------------------|
| SwiftUI | Time Management |
| UIKit | Effective communication |
| Xcode | Critical Thinking |
| iOS development | Performance Optimization |

Work Experience

Software Developer, Eclectics International **January 2025- present**

- Led end-to-end development of Mobile banking application(SwiftUI/UIKit), expanding product offerings and demonstrating features to stakeholders.
- Spearheaded client requirement gathering and UI/UX design for financial apps, translating business needs into technical specs.
- Co-developed and enhanced multiple enterprise mobile solutions used across banking and SACCO environments.
- Mentor junior developers in debugging and adopting best practices involved in iOS development

- Contributed to the design and development of mobile applications for loan processing and loan applications, improving customer onboarding and automation of loan workflows
- Collaborate with backend teams to redesign REST apis.
- Integrated CI/CD pipelines (Gitlab) reducing deployment time and ensuring code quality with setup checks.

Junior Developer, Eclectics International December 2023

- Led in research of voice mobile banking, interacting with mobile banking applications through voice commands.
- Developed iOS application from core including sales force app equipping me with hands-on experience in tooling app according to customer needs and collaborating with crossfunctioning teams eg Project manager, Scrum master, QA DevOps, and developer to yield quality apps.

Projects

EFTA App - EQUITY FOR TANZANIA LIMITED

Contributed to the development of the EFTA Leasing App, an equipment leasing and asset management solution built using SwiftUI.

Key contributions:

- Implemented core modules for lease tracking, equipment inventory, repayment monitoring, and contract management.
- Worked with product and business teams to translate leasing workflows into smooth, user-friendly iOS interfaces. Integrated secure APIs and optimized data handling for improved reliability and performance.
- Supported UI/UX refinement, bug fixing, and performance optimization across iOS devices.

MyConso App - CONSOLIDATED BANK OF KENYA LTD

Participated in building and enhancing the MyConso digital banking application, enabling customers to access financial services remotely.

Key contributions:

- Developed features such as account balance view, fund transfers, statements, bill payments, and user authentication.
- Collaborated with designers and backend teams to deliver an intuitive and secure mobile banking experience.
- Improved app responsiveness, navigation flow, and error-handling to strengthen overall usability.

Credit Bank CB Konnect App - CREDIT BANK PLC

Contributed to the development of CBKonnect, a modern mobile banking app offering real-time access to Credit Bank services.

Key contributions:

- Implemented essential banking features including account inquiry, funds transfer, card management, and bill payment functionalities.
- Worked on secure API integrations, token handling, and data encryption to maintain high security standards.
- Assisted in enhancing the UI/UX to ensure a smooth and engaging customer journey across the app.

Faulu Digi Cash App - FAULU MICROFINANCE BANK LIMITED

- Contributed to the development of the Faulu Digi Cash mobile application, a digital banking and loan services platform built using SwiftUI and UIKit.
- Implemented core features enabling customers to apply for loans, track loan status, view statements, manage accounts, and perform secure mobile banking transactions.
- Collaborated closely with product owners and business teams to translate financial requirements into intuitive and user-focused mobile experiences.
- Enhanced application security through best practices including secure API integrations, token management, encryption handling, and real-time validation flows.
- Participated in optimizing user onboarding, KYC processes, and loan workflow automation to improve customer experience and operational efficiency.
- Supported UI/UX enhancements and debugging activities to ensure a smooth, reliable, and responsive app performance across different iOS devices

FINCA Uganda App - FINCA Network Support BV

Participated in the development and enhancement of the FINCA Uganda Mobile App, providing secure digital banking services to FINCA customers.

Key contributions:

- Implemented key features for balance inquiries, transfers, savings management, and loan repayments. Integrated secure APIs and improved data synchronization for reliability and accuracy.
- Worked on UI/UX enhancements and troubleshooting to deliver a consistent and high-quality user experience.
- Contributed to improving app stability and performance for better customer satisfaction.

Education

Bachelor of Science In Computer Science **2023**
Gretsa University

Diploma in Information Comunication **December 2019-2022**
Technology(ICT)

Thika Technical Training Institute

Language

English Kiswahili
