EDUCATION

MACHAKOS UNIVERSITY

Bachelors | Telecommunication and IT

I hold a Bachelor of Science in Telecommunication and Information Technology, which equipped me with strong theoretical and practical knowledge in computer networking, telecommunications systems, and information technology infrastructure. Through this course, I gained hands-on experience in data communication, wireless and fiber optic technologies, network installation, router and switch configuration, cabling, and system troubleshooting.

I also developed skills in ICT support, system administration basics, database fundamentals, cybersecurity awareness, and project management. The program prepared me to effectively support, maintain, and improve ICT systems in both institutional and organizational environments while adhering to professional and ethical standards.
