### **PROFESSIONAL SUMMARY**

I'm a highly ethical and diligent ICT professional with a robust skill set spanning backend and frontend development. My expertise includes working with relational and non-relational databases, understanding the Software Development Life Cycle (SDLC), and proficiency in JavaScript Libraries such as React, Angular, Next, Node, and Express, along with PHP/Laravel. I'm adept at using Jira, Postman & Swagger, documenting data flows, and handling JSON. I thrive as a collaborative team player and am driven by a passion for continuous learning in technology.

### **EDUCATION BACKGROUND**

Bachelor of Library and Information Science - Egerton University

Kenya Certificate of Secondary Education - Baringo Boys High School

### **ADDITIONAL CERTIFICATION**

- Master Laravel for Beginners & Intermediate by Udemy
- React JS Developer by Udemy
- Full Stack Developer by Udemy
- Generative AI Training-Open University of Kenya

### **WORK EXPERIENCE**

#### **1. SafariDesk-Modern Ticketing System (March 2025-Present) Part-time**

*PHP-Laravel Developer (U.S.A \_ Remote)*

**Troubleshooting & Resolution:** Efficiently debug and resolve technical issues and bugs within the SafariDesk Ticketing System.

**Collaborative Feature Development:** Partner with cross-functional teams to define, design, and implement new features for the platform.

**Vue.js Front-End Crafting:** Develop dynamic, interactive user interfaces using Vue.js, focusing on component building and state management.

**Code Excellence:** Produce clean, efficient, and well-documented code, strictly adhering to industry best practices.

**System Performance & Security:** Guarantee that applications are secure, highly scalable, and performant.

**API Integration Mastery:** Leverage a solid understanding of RESTful APIs for seamless integration.

## **2. RWS LIMITED GROUP – AI Model Trainer (Sep 2025-Oct 2025)**

*Diamond & Ruby Project (United Kingdom \_ Remote)*

- ❖ Trained and evaluated linguistic AI models to improve language understanding and content accuracy.
- ❖ Annotated, reviewed, and validated multilingual datasets to ensure high-quality training data.
- ❖ Identified model errors, inconsistencies, and bias, providing structured feedback for improvement.
- ❖ Supported intelligent content and localization workflows aligned with global standards.
- ❖ Ensured compliance with data quality, confidentiality, and ethical AI guidelines.
- ❖ Collaborated with global AI and language teams to enhance model performance and reliability.

## **3. WISH TO WEAR COMPANY – React Developer (Feb 2024 – Feb 2025)**

*United Arabs of Emirates (UAE) Dubai – Remote*

<https://www.wishwear.com/>

### **Key Contributions & Responsibilities**

- **Developed and optimized user interfaces:** Translated complex UI/UX designs into functional, interactive web interfaces using React.js, focusing on performance with techniques like memoization.
- **Integrated APIs & managed data:** Seamlessly integrated REST APIs, handling asynchronous operations, errors, and implementing efficient data fetching/caching strategies. Documented data flows and handled JSON data effectively.
- **Utilized databases:** Gained practical experience with MySQL and PostgreSQL for efficient data querying and manipulation.
- **Managed version control:** Collaborated effectively using Git/GitHub, ensuring smooth code integration and participating in code reviews.

- **Conducted testing & debugging:** Developed and executed unit/integration tests; utilized debugging tools and Postman for API testing, collaborating with backend engineers for cross-functional troubleshooting.
- **Optimized performance:** Analyzed and resolved application bottlenecks, implementing code splitting, lazy loading, and image optimization for improved load times.
- **Ensured cross-browser compatibility:** Guaranteed consistent rendering and functionality across various browsers and devices through rigorous testing and modern CSS practices.

**4. KENYA NATIONAL LIBRARY SERVICE – ATTACHMENT (May 2023-August 2023)**

**KEY SKILLS AND COMPETENCES ACQUIRED**

- **Efficient Document Handling:** Managed library materials (books, journals, digital resources), ensuring timely access.
- **Meticulous Record Organization:** Cataloged and classified materials per AACR2 standards, maintaining accurate records.
- **Comprehensive Record Management:** Updated and maintained the library catalog for integrity and accessibility.
- **Robust Document Tracking:** Tracked library materials to minimize loss or misplacement.
- **Effective Record Appraisal and Retention:** Contributed to record appraisal, aligning with library policies.
- **Adherence to Classification Systems:** Assisted in implementing and maintaining DDC/LoC systems for logical organization.
