10100 NYERI

SKILLS

- Laboratory work competency
- Instrument Calibration
- Quality Control Procedures
- Data Interpretation
- Chemical Handling
- Petroleum product analysis
- Quality Control
- Spectrophotometry
- Analytical Thinking
- Laboratory safety protocols
- Sample Preparation
- Time Management
- Lab result interpretation
- Laboratory techniques

CAREER OBJECTIVE

Seeking to leverage my extensive experience in Laboratory operations and fskills to excel as a Labolatory Technologist in your organisation. Committed to driving outstanding service delivery, and ensuring operational efficiency in line with the organisation growth objectives. Eager to apply my expertise in developing strategic interventions, implementing internal control systems, and fostering a culture of continuous improvement to contribute to the success and expansion of the organisation operations.

EDUCATION

MERU NATIONALPOLYTECHNIC-MERU

01-2017 - 01 - 2021: DIPLOMA IN
ANALYTICAL CHEMISTRY

KIHUYO SECONDARY SCHOOL-NYERI

01- 2012 - 11 - 2016: KENYA CERTIFICATE
OF SECONDARY EDUCATION - C PLAIN

IHURURU PRIMARY SCHOOL-NYERI

01-2004 - 11 - 2011: KENYA CERTIFICATE
OF PRIMARY EDUCATION - 304 MARKS

COMPUTER PROFICIENCY

MS Word	Excellent
MS Excel	Excellent
MS PowerPoint	Excellent
MS Access	Excellent
MS Publisher	Excellent
Internet Applications	Excellent

JOB EXPERIENCE

■ QUALITYCONTROL (INTERN)

01-2024-02-2025|KENYA PIPELINE COMPANY

- Prepare sample for analysis
- Proper documentation of the result.
- Efficiently processed a high volume of sample
- Continuously improved laboratory processes through regular review and implementation of updated industry standards.
- Collaborated with interdisciplinary teams to develop new testing protocols, improving overall laboratory performance.
- Performed lube oil analysis
- Coordinated with external laboratories to ensure accurate inter-laboratory comparisons and maintain high-quality standards across facilities.
- Maintained a safe and compliant work environment by adhering to established safety protocols and guidelines.
- Developed strong working relationships with colleagues from different departments, fostering collaboration towards shared goals.
- Provided reliable support during emergency situations by being available on-call outside regular working hours.
- Maintaining equipment calibration and conducting rigorous quality control checks.

■ QUALITYCONTROL

02-2023-11-2023|NERIX PHARMA LIMITED

- Analysis of raw and packaging materials as per British pharmacopeia & in-house specification
- Receiving and analysis of immediate & finished products as per in-house & British pharmacopeia
- Stability studies for retainer finished products
- Cleaning maintenance and calibration of laboratory equipment's
- Overview of validation activities
- Preparation and review of controlled documents
- Method development for drug analysis using HPLC, GLC, UV/VISIBLE, FTIR-ATR
- Report writing and documentation

■ TECHNICIAN

02-2021-11-2022|KARARE MIXED
SECONDARY SCHOOL MARSABIT

- Perform and standardize tests on inorganic and organic compounds
- Labelling process to conduct inventory of reagents, chemicals and supplies
- Resolve outline issues and escalate on-standard
- Critical issues according to department
- Decreasing laboratory spending by closely monitoring laboratory inventory
- Maintaining organized safe and effective laboratory environment to minimize accidents
- Develop laboratory testing program while adhering to SoPs, ECOs.

■ TECHNICIAN

09-2019-12-2019|KEFRIMUGUGA

- Performed troubleshooting and diagnosis on malfunctioning equipment.
- Maintained a safe work environment by strictly adhering to established safety protocols and guidelines.
- Increased customer satisfaction with prompt and knowledgeable support for various technical issues.
- Optimized system performance through testing and analysis.
- Completed complex repairs quickly by leveraging strong diagnostic skills and attention to detail.
