PROFESSIONAL SUMMARY

Results-driven technology and business professional with a rare blend of ICT engineering, data analytics, financial accounts, and systems administration experience across public and private sectors. Proven track record of delivering enterprise-grade IT infrastructure, data-driven insights, and revenue supporting systems for high impact organizations including government agencies, corporates, and fast-growing SMEs. Adept at operating at the intersection of technology, finance, and strategy, making me highly suitable for senior technical, analytical, or management-track roles within banking, consulting, telecoms, fintech, and multinational environments. Known for strong stakeholder engagement, execution under pressure, and the ability to translate complex technical concepts into business value.

PROFESSIONAL EXPERIENCE

NewEdge Solutions Ltd

2025 Jan – May 2025

Sales/ ICT Engineer and IT Admin

- Deliver end-to-end enterprise ICT solutions including servers, networking, radio communication systems, CCTV, and security infrastructure across multiple industries. Lead server architecture design, deployment, and maintenance, ensuring high availability, data security, and business continuity for key clients including *Tundra Holdings*.
- Conduct technical site assessments, develop proposals, and support contract execution in collaboration with sales teams.
- Oversaw mission critical radio systems at Lewa Conservancy (Pimbi), maintaining uninterrupted operations in remote environments.
- Developed SOPs for server maintenance and documentation, improving operational efficiency and service consistency.
- Successfully executed complex deployments within tight deadlines, minimizing downtime and operational risk.

Winsol LTD

2024 Nov ~ May 2025

IT Specialist (Contract)

- Deployed and maintained secure server environments for high-profile clients including Kenya Airports Authority (KAA).
- Supported enterprise networking, structured cabling, wireless links, and ICT equipment deployment.
- Led email marketing and CRM automation initiatives using Zoho, HubSpot, Salesforce, Odoo, and Zapier.
- Conducted technical surveys, system design, and proposal preparation for large-scale ICT projects.
- Achieved 100% SLA compliance and reduced system failures by over 30% through proactive monitoring and preventive maintenance.

Epinician LTD

2024 Aug ~ 2025 April

ICT Engineer

- Played a hybrid role across ICT engineering, sales support, and tender management.
- Prepared and managed ICT tenders for public and private sector clients, ensuring compliance and accuracy.
- Delivered server installations, post-implementation support, and vendor coordination.
- Supported marketing initiatives and supplier engagement, contributing to successful project delivery and revenue growth.

Sarabi Savanna Safaris

2024 Apr – Aug 2024

Senior Data Analyst/ICT specialist

- Conducted business and marketing data analysis to support strategic decision-making.
- Developed dashboards, reports, and visual insights to guide operational adjustments.
- Supported internal audits, data governance, and system setup during the company's formative stage.
- Contributed to website content, digital systems, and early business development initiatives.

Nairobi City County Government(NCCG)

2023 May ~ 2023 October

Revenue Officer

- Supported revenue collection, reconciliation, and internal audit processes.
- Advised taxpayers on compliance and resolved payment issues.
- Managed administrative reporting, case files, and secure data uploads.
- Assisted in IT incident tracking and service delivery support for end users.
