PROFILE

I am a highly skilled and dependable technician with extensive experience in the installation, diagnosis, repair, and maintenance of various heating, ventilation, refrigeration, and air conditioning systems, as well as pumps and motors. Committed to adhering to standard operating procedures within a highly regulated environment, I ensure optimal system performance and compliance with industry standards. Dedicated to delivering exceptional customer service, I prioritize efficiency, safety, and client satisfaction in every project.

WORK EXPERIENCE

Kellogg Brown and Roots (KBR) OCTOBER 2023 - PRESENT
Diego Garcia US Navy Support Facility

- New installation of air conditioning systems for new locations.
- Modifications and troubleshooting for any related to refrigeration systems like coolers, refrigerators, freezers, and air conditioning systems.
- Assist the team whenever requested for any issue to complete the project smoothly.
- Receive follow-ups every day given calls for maintenance by the maintenance manager.
- Report the summary of work carried out for individual guest rooms and common areas.
- Carry out general maintenance as per the schedule provided by the maintenance manager for the air conditioning system and chillers.
- Repair and maintenance of Water Chillers, Packaged ACs, split type ACs, Ptac, Window ACs, and chillers, including replacements of components.
- Cleaning and servicing of extractor fan motors for ducts and kitchen woods.
- Servicing and maintenance of water pipes, gas pipes/ hoses, replacements of valves, and installations of water pipes.
- Distribution of power, replacement of bulbs, faulty switches & sockets
- Daily inspections of both gas pipes and water pipes, check leaks and repairs were possible.
