TO WHOM IT MAY CONCERN

Date: 18/05/2021

Dear Sirs,

RE: ELIUD ANAYA ID NO. 36337801

The above named person joined us on 25/02/2021 as a Electrical technician on attachment from The P.C Kinyanjui Technical Training College, and has been with us, until his attachment expired on the 21/05/21

During this period, he attained a wealth of experience in the following but not limited to:

1. General machine maintenance e.g. overhead cranes, induction heaters, 3 layer coating machine, internal FBE lining machine, pipe blasting machine, pipe forming machine, among other machines used in large diameter pipe, fittings and coupling manufacture. The key electrical skills include;
 - three phase motor connection
 - dc drives wiring and commissioning
 - overhead cranes electrical wiring
 - repair of welding machines, grinders and installation
 - Screw compressor and plasma cutter installation and repair
 - Power transmission & power factor correction
2. He also had a hands on experience in factory layout and factory safety, operation and maintenance of lathe & radial drilling machines

He proved to be hard working and intelligent, as he picked up instructions given by his senior quickly and put them into use without difficulty.

The company holds no reservations in recommending him to any employer in need of his services.

Yours faithfully

For ASP Company LTD

Robert Bulimo

Maintenance Engineer
