HIGHLIGHT OF MY BACKGROUND AND QUALIFICATIONS

I am an organized and customer-focused professional in the fields of plumbing and pipe fitting, and installation work, with a solid understanding of all the plumbing and water installations and management dynamics, with a great focus on customer service and satisfaction. I have two years' experience in the plumbing and construction industry, providing quality water services to both rural and urban setups up as well as waste water management services and solutions to meet customer needs and exceed their expectations. I have a great track record of exceeding customer expectations by guiding and assisting them in plumbing works, advising individuals on the best ways to tap and manage water as well as how to manage waste water from both households and industries, to meet the current customer needs and satisfaction while capitalizing on modern technology.

EDUCATION QUALIFICATIONS AND SKILLS

Currently, I hold a grade III certificate in plumbing and pipe fitting from the National Industrial Training Authority (NITA)

Below are some of the skills I hold

- Water installation and management
- Waste water management and treatment
- Repairs and maintenance skills
- Biodigester installation
- Drainage and gutter installation, as well as water collection and storage.
- Water harvesting using reliable modern technology.

PROFESSIONAL EXPERIENCES, ROLES, RESPONSIBILITIES, AND ACCOMPLISHMENTS

Previously have done an internship and worked with the NGAGAKA water and sewerage company based in Embu, Kenya, where I honed and sharpened my skills in plumbing. works and installation, maintenance and water distribution, waste water management and treatment, both on the industrial and household level.

Currently am working in the Kenyan informal construction industry as a plumber, dealing with all plumbing works, right from water installation and distribution to installation of sewer systems and biodigesters in different projects in conjunction with other experts in the field.
